

Our outdoor gyms are an excellent investment in the health and well-being of residents, encouraging regular exercise in the fresh air and promoting a healthy lifestyle. Each piece of equipment is designed with safety, durability, and training efficiency in mind, offering a wide range of exercises for people of all ages and fitness levels

The equipment is available in two variants: mounted on a pylon and free-standing.

### With pylon

### Free-standing

### Colours

Construction

Seats and backs

### Construction

Load-bearing posts made of steel pipe with a diameter of 114.3 mm. Galvanized and powder-coated.

### Pylon

A load-bearing element for fitness equipment, allowing the installation of two devices on either side. It also serves as an information board.

### Treads

Made of stainless steel.

### Seats and backs

Made of 19 mm HDPE plate.

### Additional elements:

- high-quality vibration isolators – components that absorb and dampen vibration forces;
- equipped with two types of maintenance-free bearings – ball and tapered;
- connectors made of stainless steel.

### Anchoring

Installation 30 cm below the ground surface into a concrete prefabricated block.

## Collection features

Minimum height of users

Galvanized steel, powder-coated

Physical activity development
