

About series

The ROBINIA series is an inexhaustible source of inspiration for play for younger and older children. The variety of educational and sensory panels, as well as moving elements, stimulate in children great interest and joy.

The environmentally friendly, wooden devices in the ROBINIA series stimulate the comprehensive physical development of a child and allow a large group of children to play at the same time. Thanks to this, the child learns to establish relationships with peers, and cooperate in a group.

Over 150 playground-equipment, sports, and small architecture products fit perfectly into both the natural landscape and modern architecture.

**Produced
from natural
raw material**

**Moving
and educational
elements**

**The highest
resistance to
atmospheric
conditions**

**Supplemented
by stainless-steel
elements**

Sets for toddlers

Educational elements

Long stainless-steel slides

Activity equipment

Freestanding slides

Water and sand play

Educational equipment

Spring riders

Carousels

Swings and see-saws

Zip lines

Sport devices

Small architecture

Robinia

New!

Destination: nature!

The ROBINIA series consists of playground equipment made of natural raw material - Robinia acacia wood, the most durable wood found in Europe. This timber is characterized by natural, bright colours, has high weather resistance, does not require impregnation and can be anchored directly in the ground.

The unique Robinia series has been designed in a comprehensive way to enable creating of an offer containing all types of playground equipment: from tower sets with many climbing elements, through spring riders, carousels and swings, to small architecture.
